**Plug crop time:** 5 weeks

**Transplant to finish:** 6 to 7 weeks

Annual grass-like plant features a short mound of soft green leaves accented by flower spikes that resemble fiber optic strands. Ideal for adding texture to mixed containers or used as an indoor plant. Dense, mounded habit needs no pinching or PGRs, grows upright when young and drapes as it matures. Performs well in wet conditions. Prefers shade, but can handle sun if moisture is maintained.
